PROFESSIONAL SUMMARY

Data Engineer with hands-on experience supporting enterprise-scale data platforms and data workflows on Databricks for a global media client. Skilled in SQL, Python, PySpark, ETL/ELT processes, workflow monitoring, production data operations, and incident management. Experienced in Datadog observability, PagerDuty alert handling, data validation, root cause analysis, and ensuring reliability of critical data pipelines. Strong foundation in AWS, Apache Spark, Hadoop, Airflow, and Data Warehousing with a focus on scalable and reliable data solutions.

EDUCATION

Bachelor of Engineering, Artificial Intelligence and Data Science	2021 - 2025
P.E.S. Modern College of Engineering, Pune	CGPA: 8.1/10
Higher Secondary School (XII)	2019 - 2021
Shankarrao Butte Patil Jr. College of Arts, Science and Commerce, Junnar	91%
Secondary School (X)	2018 - 2019
Shankarrao Butte Patil Vidyalaya, Junnar	91%

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Data Warehousing and Mining, Machine Learning, Big Data Analytics, Cloud Computing, Operating Systems, Computer Networks

TECHNICAL SKILLS

Programming Languages: Python, SQL
Data Engineering: PySpark, Databricks, ETL, ELT, Data Integration, Data Pipelines, Data Quality, Data Validation, Data Modeling, Data Warehousing
Cloud Platforms: AWS (S3, EC2, Lambda, Glue, Athena, Redshift, IAM, QuickSight)
Big Data Technologies: Apache Spark, Hadoop, Hive, HDFS, Apache Airflow
Monitoring and Collaboration: Datadog, PagerDuty, Jira
Analytics and Visualization: Power BI
Version Control: Git, GitHub

EXPERIENCE

Data Engineer – Data Platform Operations and Support	Aug 2025 - Present
---	--------------------

LTIMindtree — Client: Disney

- Support enterprise-scale data platforms and workflow orchestration processes running on Databricks environments.
- Monitor production data pipelines and investigate workflow failures to ensure timely issue resolution.
- Perform root cause analysis for data processing incidents and collaborate with engineering teams on corrective actions.
- Develop and maintain Datadog monitoring dashboards and alerts to improve visibility into critical workflows.
- Manage PagerDuty incidents and coordinate resolution of production issues impacting data operations.
- Execute SQL-based data validation, troubleshooting, and operational analysis across multiple datasets.
- Analyze workflow logs, execution metrics, and monitoring dashboards to identify anomalies and performance bottlenecks.
- Support ETL processes and data movement workflows to maintain reliability and consistency across production systems.
- Create operational documentation, troubleshooting guides, and incident knowledge repositories to improve support efficiency.
- Collaborate with cross-functional teams using Jira for task tracking, incident management, workflow coordination, and issue resolution.

LTIMindtree Data Engineering and AWS Learning Program	Aug 2025 - Nov 2025
--	---------------------

Bhubaneswar, Odisha

- Completed structured training in Python, Advanced SQL, PySpark, ETL Concepts, Data Warehousing, Hadoop Ecosystem, Hive, HDFS, Apache Spark, Apache Airflow, and AWS services.
- Built hands-on proficiency in AWS S3, EC2, Lambda, Glue, Redshift, IAM, Athena, and QuickSight through practical exercises and use cases.
- Applied data engineering concepts involving data ingestion, transformation, storage, orchestration, and analytics workflows.

PROJECTS

House Price Prediction

- Performed data cleaning, exploratory data analysis, and feature engineering on housing datasets to improve model readiness.
- Built and evaluated Linear Regression and Random Forest models for house price prediction using supervised machine learning techniques.
- Assessed model performance using regression evaluation metrics and compared model effectiveness.
- Generated visualizations and feature importance insights to support data-driven interpretation of prediction outcomes.

Technologies: Python, Pandas, NumPy, Scikit-Learn, Matplotlib

CERTIFICATIONS

- Databricks Certified Data Engineer Associate
- Microsoft Certified: Power BI Data Analyst Associate
- NVIDIA Deep Learning Certificate
- Anthropic Claude 101 Certification
- IIT Bombay Spoken Tutorial Certifications: Python, PostgreSQL, C++, HTML

LEADERSHIP ACHIEVEMENTS

Leadership

- Core Member, Google Developer Student Clubs (GDSC)
- Tech Member, Club of Data Engineers (CoDE)
- Tech Member, MARS Club

Achievements

- Qualified for e-Yantra Robotics Competition (Level 2)
- First Prize in College-Level Art Competition for two consecutive years

EXTRA-CURRICULAR ACTIVITIES

Dancing, Anchoring, Public Speaking, Creative Arts
